Year 5/6

Spring Newsletter 2019

Welcome back! We hope you have had a lovely Christmas holiday. Year 5/6 will be an exciting and fun-packed term. We are really looking forward to our next topics.

We shall be continuing our journey from 'POLE TO POLE' and will arrive in Central and South America, where we will find out who the Mayans were, make jewellery in DT, discover sights and scenes of South American countries.

Curriculum

Combined with our South America topic work this term, we will be doing the following in literacy: Instructions for Maya necklaces; story writing based on wordless books and suspense narratives; a newspaper report; chronological report about the production of chocolate and poetry, advertising and persuasive writing about chocolate too.

Science

In science we will be looking at chemical changes with specific reference to chocolate, its origins in South America and its impact on York.
