<b><u>Built in Accessibility</u></b>		<b><u>Built in Navigation</u></b>	
<b>Text to Speech</b>	Hear full pages (or parts) read aloud.	<b>Auto Click</b>	Clicks when mouse is paused.
<b>Dictation</b>	Speak to enter text.	<b>Large Cursor</b>	Makes the cursor larger and more visible.
<b>Colour Inversion</b>	Change your chromebook display to dark theme.	<b>Highlighted cursor</b>	Places a highlighted circle around the cursor.
<b>Onscreen Keyboard</b>	Keyboard displayed on screen.	<b>Touchpad Speech</b>	Slows down speed of touchpad/cursor.
<b>Live Captions</b>	Closed Captions appear alongside played media.	<b>Screen magnifier</b>	Zooms in on the full screen.
<b>Voice Type in Docs</b>	Speak to type.	<b>Split Screen Magnifier</b>	Creates a split screen with a zoomed in display.
<b><u>Accessibility Extensions</u></b>		<b><u>Reading Extensions</u></b>	
<b>Translate</b>	Translates web pages etc.	<b>Scribe</b>	Allows you to highlight and annotate web pages.
<b>Dictionary</b>	Click on words to see definitions as you browse.	<b>Postlight Reader</b>	Removes ads and pop ups from web pages.
<b>Move It</b>	Timed reminders for movement breaks.	<b>Magic Scroll</b>	Turns web pages into scroll books.
<b>Speak It</b>	Converts text to speech.	<b>Auto Summary</b>	Summarises passages of text within web pages.
<b>Open Dyslexia / screen shader</b>	Changes web pages to a dyslexia friendly font / places a coloured overlay on the screen.	<b>Read &amp; Write</b>	Reads children writing out loud with docs.
<b>Crafty Zoom</b>	Turns the cursor into a magnifying glass.	<b>Reading line</b>	Acts as a reading ruler, highlighting each line.
